

Growing quality. Sustaining communities. Empowering agriculture.

About us

Established in 2012, Botake Enterprises is proudly Zimbabwean, woman owned diversified agricultural enterprise based in Zvimba District, Mashonaland West Province.

Since it's establishment, the company has been committed to producing high quality agricultural products while promoting sustainable farming, food security, economic empowerment and community development . Botake Enterprises operates an intergrated agricultural system that combines livestock production, poultry production, horticulture, fruit production, grain crop production and professional agricultural consultancy services.

Our business is built on innovation, integrity, professionalism and sustainable agricultural practices. We strive to deliver products and services that meet the highest standards while contributing to the growth of Zimbabwe's agricultural sector.

Today, Botake Enterprises continues to expand it's operations with the vision of becoming one of Zimbabwe's leading agricultural enterprises and a trusted partner in agricultural development.

Our Vision

To become Zimbabwe's leading integrated agricultural enterprise recognized for excellence in livestock production, horticulture, grain production, poultry production, agricultural consultancy, innovation, sustainability, and community development.

Our Mission

To produce safe, nutritious, and high quality agricultural products while providing professional agricultural consultancy services that improve productivity, promote food security, empower communities and support sustainable agricultural development.

Our Core Values

- Integrity
- Professionalism
- Excellence
- Innovation
- Sustainability
- Accountability
- Customer Satisfaction
- Environmental Stewardship
- Animal Welfare
- Continuous Improvement

Our Story

Botake Enterprise was founded on the belief that agriculture is one of the most powerful tools for transforming lives and communities. Over the years, the enterprise has steadily grown into a diversified agricultural business driven by a passion for excellence, innovation, and sustainable development.

Our commitment extends beyond commercial farming. We believe agriculture should create opportunities, empower people, strengthen communities, and contribute to national development.

As we continue to grow, our focus remains on producing quality agricultural products while building resilient farming systems that will benefit future generations.

Our Business Divisions

Livestock Production

Poultry Production

Horticulture Production

Agricultural Consultancy

Grain Crop Production

Livestock Production

Botake Enterprises specializes in the production of quality beef cattle, goats, and sheep through sustainable livestock management systems.

Our livestock programme focuses on:

- Commercial beef production
- Breeding programmes
- Herd improvement
- Animal health management
- Record based performance monitoring
- Bio-security
- Sustainable grazing

We are committed to producing healthy livestock that meet market requirements while maintaining the highest standards of animal welfare.

Poultry Production

Our poultry enterprise produces quality poultry products using modern management systems and strict bio-security practices.

We specialize in:

- Road runner chickens
- Broilers
- Layers
- Turkeys
- Guinea fowls

Products Include:

- Live birds
- Table eggs
- Fertile eggs
- Hatching eggs

Horticulture

Botake Enterprises produces fresh vegetables throughout the year using irrigation, crop rotation, climate-smart agriculture and scientific production methods,

Our vegetables programme includes:

- Tomatoes
- Cabbages
- Spinach
- Onions
- Garlic
- Leafy vegetables
- Green beans
- Butternuts
- Carrots
- Beetroot

Our objective is to ensure continuous production while supplying fresh produce to households, institutions, retailers and commercial markets.

Grain Production

To strengthen food security and livestock production, Botake enterprises continues to expand it's grain production programme.

Priority crops include

- Maize
- Wheat
- Soyabeans
- Sorghum
- Sunflower
- Groundnuts

These crops support both commercial production and livestock feed requirements while reducing dependence on external inputs.

Fruit Production

Botake Enterprises produces quality fruits using sustainable production systems that promote environmental conservation and year round productivity,

Our orchads include:

- Citrus
- Mangoes
- Bananas
- Avocadoes
- Guavas
- Pawpaws

Fruit production complements our horticulture enterprise while improving nutritional diversity and market opportunities.

Agricultural Consultancy

In addition to agricultural production, Botake Enterprises provides professional consultancy services to farmers, institutions, schools, agribusinesses, NGOs, and development organisations.

Services include:

- Livestock consultancy
- Poultry consultancy
- Horticultural consultancy
- Farm planning
- Bio-security planning
- Farm record systems
- Staff training
- Agricultural extensions
- Farm monitoring
- Enterprise Development

We believe knowledge is one of agriculture's most valuable resources.

Sustainability

Our production systems are founded on sustainability,

We implement:

- Crop rotation
- Soil testing
- Water conservation
- Efficient irrigation
- Biosecurity
- Regenerative agriculture
- Integrated pest management
- Soil fertility improvement
- Animal welfare programmes

These practices insure long-term productivity while protecting the environment.

Strategic Objectives

- Expand horticulture Production
- Expand grain production
- Develop commercial cattle enterprise
- Expand goat production
- Expand sheep production
- Develop road runner poultry
- Promote climate-smart agriculture
- Empower women and youth
- Support the sustainability of Rydale Ridge College
- Establish a Centre of agricultural excellence.

Our Impact

Botake Enterprises is committed to creating lasting value through agriculture.

We contribute:

- Food security
- Employment creation
- Rural development
- Farmer empowerment
- Agricultural education
- Women's empowerment
- Youth development
- Community transformation

Our long-term objective is to build a sustainable agricultural ecosystem that feeds, educates, empowers, and transforms communities across Zimbabwe.

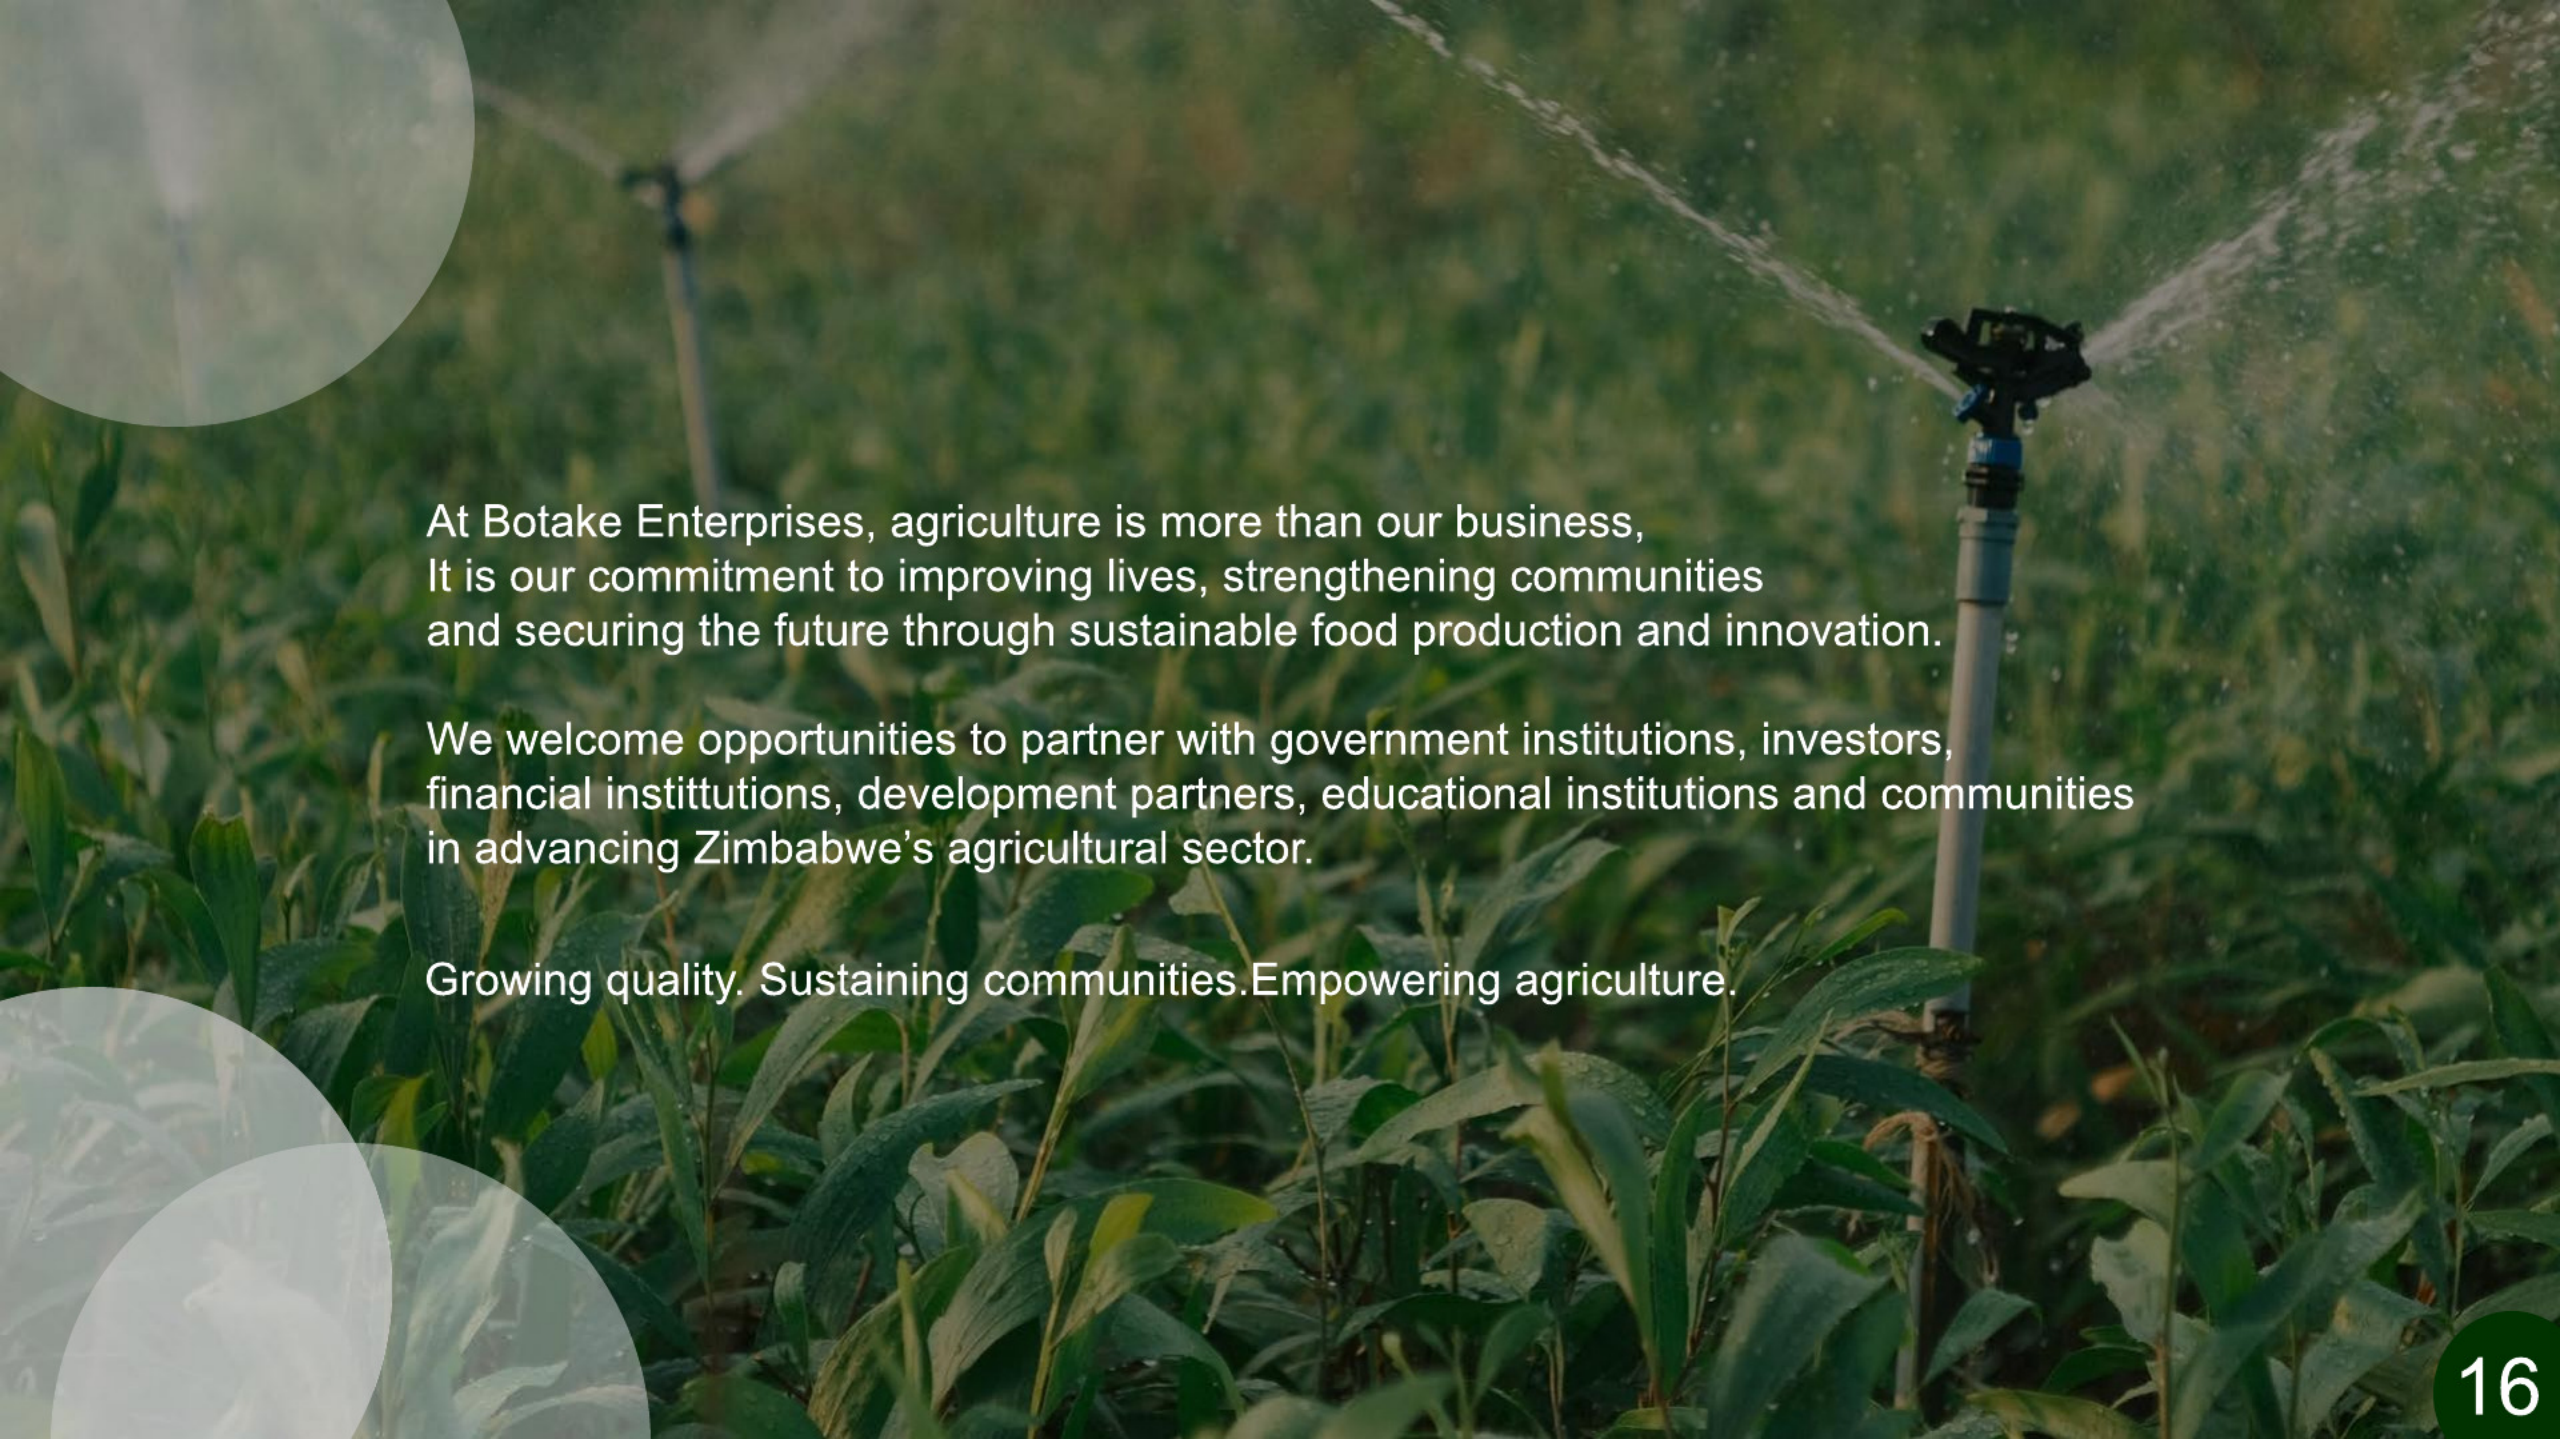

Why Choose Botake Enterprises?

Clients and partners choose Botake Enterprises because of our:

- Diversified agricultural expertise
- Commitment to quality
- Sustainable farming systems
- Professional consultancy services
- Modern agricultural practices
- Strong biosecurity standards
- Reliable product supply
- Customer centred approach
- Long-term vision for agricultural development

We are committed to building lasting partnerships based on trust, professionalism and excellence.

At Botake Enterprises, agriculture is more than our business,
It is our commitment to improving lives, strengthening communities
and securing the future through sustainable food production and innovation.

We welcome opportunities to partner with government institutions, investors,
financial institutions, development partners, educational institutions and communities
in advancing Zimbabwe's agricultural sector.

Growing quality. Sustaining communities. Empowering agriculture.
